Registered Nurse (RN)

September 23, 2019

Donald Raines  
Director of Nursing  
Shamus T. Knight Memorial Hospital  
360 Camden Street  
Reno, NV 89501

Dear Donald:

I've been a registered nurse for over 3 years at University Medical Center in Las Vegas. Having recently moved back home to Reno, I was excited to find a job opening on your medical staff as an RN at Shamus T. Knight Memorial Hospital. With my well-rounded expertise informing patients on pain management techniques, reviewing laboratory data for anomalies and problems, and assisting in the emergency room, I believe I would make a valuable addition to the nursing staff as a registered nurse.

In the job ad, it mentions you are seeking an RN capable of accurately and efficiently evaluating patients for medical signs and symptoms, as well as initiating the appropriate responses. As a staff nurse at LV-UMC, I successfully evaluated and identified patient responses to treatment and signs of illness. During my employment there, I effectively managed a caseload of 15 per day, while also helping our nursing team to achieve Magnet status recognition. I know I would be able to bring that same level of dedication and commitment to work at STK.

I am sure that I'd love working at your hospital in particular, as I have great respect for the staff and the research that has been conducted here. I'd be honored to become part of the nursing family at Shamus T. Knight Memorial Hospital.

Could we arrange a sit-down or phone call to discuss how I could help Shamus T. Knight Memorial Hospital lessen its workload while increasing the quality of care?

Sincerely,

Edward Welch, RN
